

Vu Hai Long

intern

Hanoi, Vietnam

vu hailongkl97@gmail.com

0971897950

EDUCATION

Oct 2015 + POST & TELECOMMUNICATIONS INSTITUTE OF TECHNOLOGY

↓
today

Major: [electronic engineer](#)
GPA: 3.15/4

WORK EXPERIENCE

Jan 2019 + FSOFT

↓
May 2019

[intern device driver](#)
learn device driver , building kernel , uboot
create a project using device driver : snake game (i2c driver , gpio driver , game app)

source code
: https://github.com/vuhailongkl97/Linux_device_driver_project
demo : <https://www.youtube.com/watch?v=CphT0TvB78E>

Jun 2018 + FSOFT

↓
Nov 2018

[intern RTOS](#)
working with FreeRTOS on stm32f4.
update knowleagde about basic OS

Oct 2015 + SCHOOL

↓
May 2019

[project on school](#)
make some project : rf radio, fpga, IoT, .. with python, C , VHDL language
source code : <https://github.com/vuhailongkl97/>

ACTIVITIES

Jan 2019 + SCHOOL

↓
Apr 2019

[join some competition about robot](#)
robot followline

OBJECTIVE

Take advantages of coding skills & experience and understanding of linux device driver to become a professional programmer and bring a lot value to Company

SKILLS

C

bash, python

microcontroler

linux

device driver

INTERESTS

- movie
- game
